

Shuangxi Elementary School, Puzi City, Chiayi County

義縣朴子市雙溪國民小學
Shuangxi Elementary School
**Connecting the world with technology
education and international education**

School Profile

Our school is located in Puzi City, Chiayi County and founded in 1958, it has been 65 years since the school was founded. Our school belongs to a small school in a rural area, there are currently 57 students.

Although the size of the school is small, the environment is quiet, convenient transportation, it is a very suitable place for students to learn education.

School Vision

The future is an era of using technology and talent flow. In order to enable students to adapt to the future life, the school has designed International education courses, Information Technology courses, and Art courses. It is hoped that students can cultivate the 5C key abilities of Communication, Collaboration, Complex problem solving, Critical thinking and Creativity through the study of these courses.

Featured Course Introduction

◆ International Education Course

This course focuses on SDGs and discusses current issues that are happening in the world. Students develop action plans for the issues and influence people around them to care for and change the world through initiatives.

◆ Information Technology Course

We participate in First Lego League Challenge and conduct SDGs theme research, robot design and programming. Through this course, students can develop the key ability of 5c.

◆ Art Course

Ten Drums and Calligraphy are traditional cultural arts in Taiwan. Through learning these courses, students can become inheritors of culture and promote it internationally.

We love international exchange

We sincerely hope that through the courses of international exchange, the two sides can allow children to broaden their international horizons, learn from each other's culture, and pay attention to international issues, change the world and make the future better.

We are flexible to cooperate with countries with a time difference. We are also capable of using various online meeting projects for our collaborative learning, such as Google Meet, Skype and etc.

Conditions for cooperation

Language: English

Grade: 3th to 6th grade

Topic: SDGs International Cooperative Learning, Culture Exchange, International Pen Pals.

Cooperative mode

Project 1 - My Culture Your Culture

Exchange method: Use online meeting or video to introduce the schools and traditional cultures of both parties, and make cultural cards to send to each other.

Project 2 - My City and Me

Exchange method: Introduce the historical sites, architecture, culture or local special characters of the city where you live, and make presentations or videos to share with partner schools.

Project 3 - SDGs Mural Exchange

Exchange method: The students from both sides have decided to carry out an SDGs project, which includes engaging in issue discussions, developing action strategies, and drawing their visions for SDGs in a mural. The mural will be created by each school contributing half of it. Finally, the learning outcomes will be shared with the exchange partners, community members, and even the entire nation.

The above projects can be discussed and adjusted as needed.
